NEW INSTALLATIONS INCREASE POWER POTENTIAL

GEORGIAN GESs GETS MORE EQUIPMENT -- Zarya Vostoka, No 106, 2 Jun 49

On 31 May 1949, the third plant unit of the Khrum Hydroelectric Power Plant was put into operation. The full planned capacity of Khrum GES has thus been achieved.

Kommunist, No 101, 26 May 49

The first unit of the Chitakhevskiy GES, Borzhomskiy Rayon, Georgian SSR, now under construction, must begin the output of electricity this coming winter. This GES is to furnish electricity for the Georgian coal industry.

STALINSKIY TET: SPEEDS BOILER REPAIR -- Moskovskiy Bol'shevik, No 129, 3 Jun. 49

Capital repair of the large boiler works of a power plant customarily takes a month. The Staliniski Heat and Power Plant introduced high-speed repair methods which made it possible to carry out capital repair on a boiler having 2,500 square meters of external heating surface in 11 days instead of 29 as planned. The new method saved millions of kilowatt-hours of electric power for Moscow City and Oblast industry.

PROHIBIT VOLUNTARY INCREASE OF POWER CONSUMPTION -- Sovetskaya Litva, No 140,
16 Jun 49

Energosbyt (Power Sales Office) of "Litovenergo" (Lithuanian Electric Power) warns all enterprises and institutions that in accordance with existing regulations, a consumer, to receive approval for using electric power for technical purposes, must notify Energosbyt concerning the connection of new or supplementary electrical units within the following periods: power up to 10 kilowatts -- not later than one month before the proposed date of connection; power above 10 kilowatts -- not later than 4 months before the beginning of the year in which the connection will be made.
